SuiGnature

Turning Community Work into Trusted Proof

Sui Builders MVP

THE PROBLEM

You organized events. You helped communities.

But when you apply for jobs… none of it counts.

No trusted, verifiable proof of real contributions.

STUDENTS & VOLUNTEERS LACK CREDIBILITY SIGNALS

RECRUITERS CANNOT VERIFY REAL WORK

VALUABLE CONTRIBUTIONS GO UNNOTICED

WHY THIS MATTERS

OUR SOLUTION

SuiGnature

OUR SOLUTION

Organizations issue verifiable credentials

Users build a public proof-of-work portfolio

HOW IT WORKS

1. Organization issues credential
2. Stored on Sui blockchain
3. User gets portfolio link
4. Recruiter verifies instantly

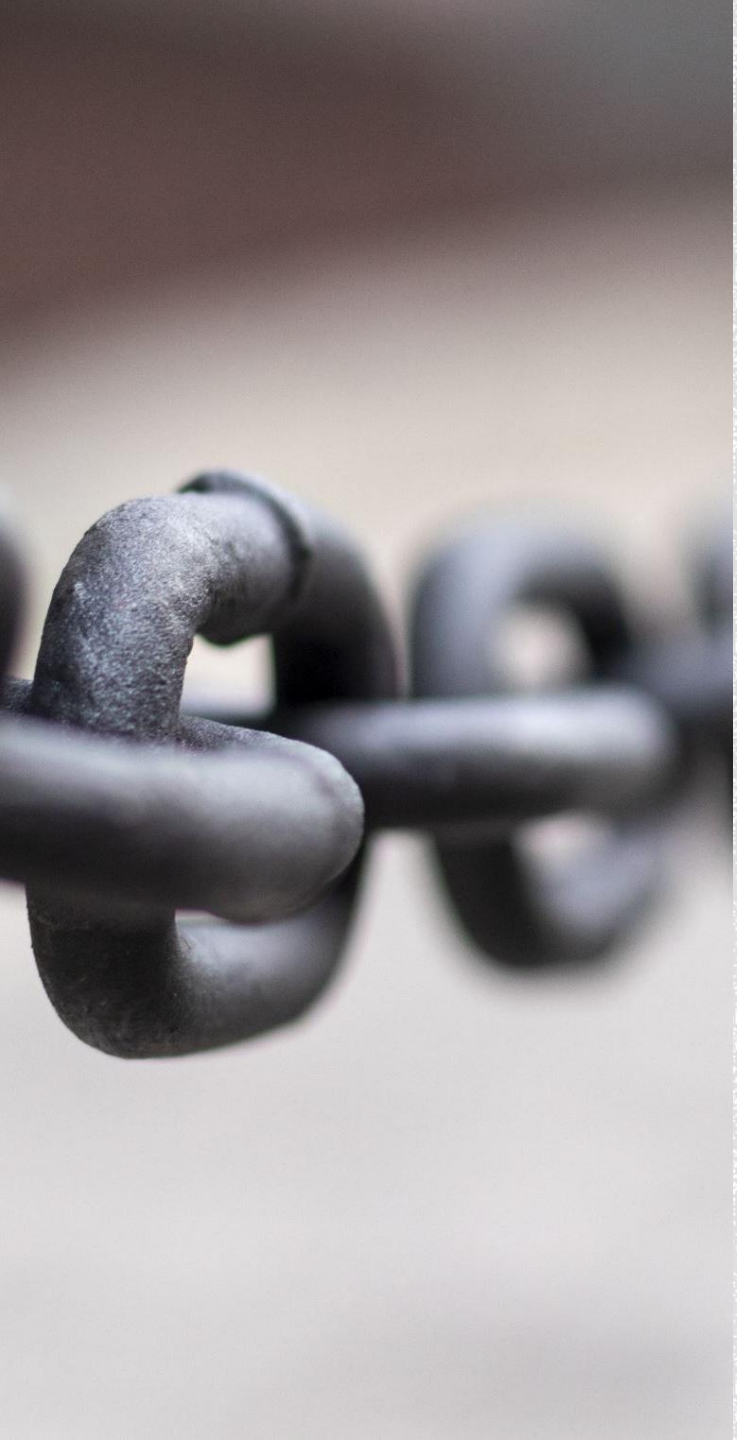
USER EXPERIENCE

A student/
Volunteer finishes a
program

→ Receives
credential

→ Shares 1 link

→ Recruiter verifies
in seconds



WHY IT'S DIFFERENT

- **Verifiable on-chain** → no fake credentials
- **Portable proof-of-work** → shareable anywhere
- **Built on Sui** → fast, scalable, low-cost

Move smart contracts

Sponsored transactions (no gas fees)

Deployable on testnet

BUILT ON SUI

MVP-ready features:

Credential issuance

Verification page

Portfolio system

Aligned with Sui ecosystem

FEASIBILITY

IMPACT

- Empowers students & builders
- Creates trusted digital identity
- Improves hiring & credibility

BUSINESS MODEL

- Organizations pay per event
- Users free forever
- Scalable across schools & communities

WHY NOW

Rise of Web3 + digital credentials

Remote work needs verifiable trust

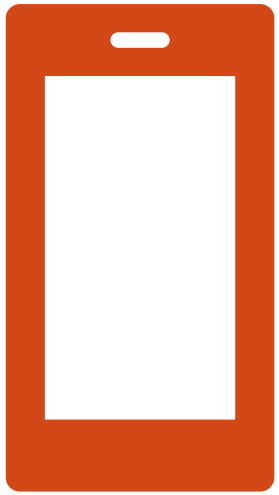
Huge gap in proof-of-work systems

WHY WE WIN

- Real problem, real users
- Simple but powerful UX
- Strong Web3 integration
- Highly scalable solution

FUTURE PATH: SEAMLESS WEB3 EXPERIENCE

- **From friction → to invisible blockchain**
- **zkLogin integration**
  → Sign in with Google, no wallet needed
- **Gasless transactions**
  → Platform sponsors all fees
- **Walletless interaction**
  → No seed phrases, no crypto knowledge
- **1-click onboarding**
  → From signup to verified portfolio in seconds



CLOSING

If GitHub proves code, SuiGnature proves contribution. We turn work into trust.
